MODELS CONCERNED:

MK4 300 Litre Powered Grass Collector

Standard belt for MK4 B Series B60-4TRAC, B250-4TRAC, C50, C60, C80, F60-4TRAC, F250-4TRAC, T50, T60 & T80.

Additional belt option for MK3 C Series C500H C600H, C800H, C600-4WD, C800-4WD, C25-4WD), S / T Series (S1350H, S1500H T1600H, T1800H, T1600-4WD, T1800-4WD & T25-4WD).

CONCERN:

Current PGC is supplied with a drive belt suitable for MK4 tractors only.

PGC Drive Belts

The new 2014 MK4 PGC is supplied with an A51 drive belt. The belt links the tractor PTO to the PGC input pulley. This belt is incompatible with earlier tractor models. Existing pre MK4 tractors will require an A49 belt in order to function as designed. The A49 belt is not supplied as standard and should be purchased as an addition at order stage.

Both A51 & A49 belts should be tensioned to 19 mm deflection at 2kg pull force.

Model	Belt	Part No.	Supply
MK4 Tractors	A51	228000200	Standard
MK3 Tractors	A49	228001200	Only on request
